The Student Transportation Service Consortium of Grey-Bruce provides transportation to all schools in Grey & Bruce counties (public and catholic).

School administrators are granted permission to see transportation information for students attending only their school. Similarly, bus operators are allowed access to information about the bus routes they operate but not bus routes operated by another company. Students can be given unique Student ID's and PIN numbers allowing them access to their own information, but no one else's.

Other general transportation information can be accessed through the school board's web-sites.
